

Data Flow Diagram & User Stories

Date	31 July 2026
Name	D. Venkata Charan Teja
Project Name	Automated Network Request Management in ServiceNow
Maximum Marks	4 Marks

Data Flow Diagrams:

User Stories:-

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
		USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
		USN-3	As a user, I can register for the application through Facebook	I can register & access the dashboard with Facebook Login	Low	Sprint-2
		USN-4	As a user, I can register for the application through Gmail	I can register & access the dashboard with Gmail Login	Medium	Sprint-1
	Login	USN-5	As a user, I can log into the application by entering email & password	I can successfully log in and land on my dashboard	High	Sprint-1
	Dashboard	USN-6	As a user, I can view my dashboard with summary of my network requests and status	I can see total requests, approved, rejected and pending counts	High	Sprint-1
	Submit Network Request	USN-7	As a user, I can submit a network resource request from the Service Catalog	I can submit a request successfully and receive request confirmation	High	Sprint-1
		USN-8	As a user, I can provide required details in the catalog: device_type, connection_type, address, user_name	All mandatory fields are validated and saved with the request	High	Sprint-1
	Request Status Tracking	USN-9	As a user, I can track the status of my network request in real-time	I can see live status updates on my request	High	Sprint-1
Customer (Web user)	Portal Experience	USN-10	As a web user, I can use the portal to submit requests and view status	I can submit requests and view status from web portal	Medium	Sprint-2
Customer Care Executive	Request Management	USN-11	As a customer care executive, I can view all network requests and their status	I can search, filter and view request details	High	Sprint-2
	Communication	USN-12	As a customer care executive, I can send updates to users if required	I can send internal notes / email updates	Medium	Sprint-2
Administrator	Approval	USN-13	As a system administrator, I can approve or reject network requests	I can approve or reject with comments	High	Sprint-1
	Automated Processing	USN-14	As a system, when a request is approved, I insert a record into u_network_database table	Record is inserted into u_network_database	High	Sprint-1
	Notifications	USN-15	As a system, I send notification emails based on approval or rejection	Approval email (Emerald) or Rejection email (Crimson) is sent successfully	High	Sprint-1
	Audit & Logging	USN-16	As a system, I maintain an audit log of all requests and actions	Audit log is available for all request lifecycle events	Medium	Sprint-2
